The holidays are fast approaching, and we've developed a great list of holiday gifts for everyone on your list. It's broken down by price category, so you can easily find something in your budget.

And remember, if you're placing your order online, do it soon so your shipment can qualify for ground shipping, which saves on fuel, helping to reduce your carbon footprint and also saving you money!

OVER \$100

Ken Burns: The National Parks: America's Best Idea DVD & Book plus Bonus CD Soundtrack, \$149.99, at ShopPBS.org.

Timex Expedition WS4

Serious outdoors people have to know how to use their ABCs— Altimeter, Barometer, Compass—when they head off the grid. Make sure that your favorite outdoor adventurer is properly equipped the next time he or she goes out on (or off!) the trail—give the Timex Expedition WS4 this holiday season.

This best-of-breed model incorporates a panoply of other features including time with full calendar, logs for all major functions, stopwatch, timer, alarm, two easy-view time zones, weather forecasting and thermometer. All of the sensors work admirably in a wide range of conditions. What we like most about the WS4 is its unique design, which has received a lot of compliments. Its wide LCD screen (hence WS) is easy to read in all lighting conditions and its user interface is well-designed and easy to operate.

Even on small hands and wrists, this amazing time (and conversation) piece looks impressive and wears comfortably. For a generation that has become accustomed to using cell phones to check the time, the Expedition will be a welcome addition, especially anyone who can appreciate visiting places where they don't get any bars.

Timex Expedition WS4, \$200, at Timex.com.
